

Generating Set Diesel

# GE.CU.1390/1260.SS+011

# **Standard Equipment and features**

# **Canopy - Soundproofing**

- Soundproof canopy IP 32 removable
- Polyester class1 soundproofing
- Snap handles with key lock
- Air inlet and air outlet Winding protection against water
- Inspection doors located to facilitate controls and servicing

### Exhaust

- Rain cap
- Exhaust collectors protection
- Exhaust tubes protection guards
- Exhaust flexible joint
- External residential muffler -35 dbA

# **Fuel supply**

- Diesel connections
- Low fuel level shutdown automatic system

### Handling

• 4 lifting lugs with integrated lifting structure

### **Base Frame**

• Anti vibrating mounting pads

### Engine

- Engine heater 230 V
- High coolant temperature and low oil pressure shutdown system
- Oil pressure & antifreeze temperature gauge
- Oil change pump
- Engine liquids (oil and antifreeze)
- Tropicalized radiator
- Rotating components protection guards

# Alternator

Parallel arranged AVR

# **Protection & connection Panel**

- Magneto-thermal protection on alternator (adjustable only on variant +10 & +11)
- Emergency stop button
- Tamper proof panel
- Power cable outlet from side
- Earth leakage point
- Machine electric wiring IP 44
- Startup battery (pre-charged)

### Documentation

• CE conformity declaration - User and maintenance manuals

### Normatives

- All ELCOS Generating sets are compliant to CE Marking
- 2004/108/CE Electromagnetic compatibility
- 2000/14/CE Noise Emission for outdoor use
- Factory-designed systems built at Elcos ISO 9001:2008

Data and technical specifications are subject to change in order to update or improve the products.

COP

# PRP

Applicable for supplying power in lieu of commercially purchased power. Prime power is the maximum power available at a variable load for an unlimited number of hours. A 10% overload capability is available for limited time. (Equivalent to Prime Power in accordance with ISO8528 and Overload Power in accordance with ISO3046, AS2789, DIN6271, and BS5514). This rating is not applicable to all generator set models.

LTP

Applicable for supplying emergency power for the duration of normal power interruption. No sustained overload capability is available for this rating. This rating is applicable to installations served by a reliable normal utility source. This rating is only applicable to variable loads with an average load factor of 80 percent of the standby rating for a maximum of 200 hours of operation per year and a maximum of 25 hours per year at 100% of its standby rating. The standby rating is only applicable to emergency and standby applications where the generator set serves as the back up to the normal utility source. No sustained utility parallel operation is permitted with this rating. (Equivalent to Fuel Stop Power in accordance with ISO3046, AS2789, DIN6271 and BS5514). Nominally Rated.

It is the power that the generating set is capable to supply, in continuous operation, for an unlimited number of hours per year at the reference environmental conditions. This is valid as long as the engine undergoes a scheduled maintenance, as specified by the manufacturer. The generating set is able to provide power equal to 100% of the nominal load. COP power is typically 30% lower than the LTP one. No overload capability is allowed for this rating.

Data and technical specifications are subject to change in order to update or improve the products.

# **Control Systems on board**

# Variant +11 (QPE-C-VSC (650-1700 SS)) Automatic panel without switching on board

The QPE-C panel represents the evolution of the panels for the control and management of the generating set, with its microprocessor logic it is able to meet any user-requested features. In fact, the dual operation mode MANUAL or AUTOMATIC guarantees to every type of functionality protection, analysis and control of the generating set in order to make the management easy and efficient. Variant +011 has separate switching inside a floor ATS panel. IP55.

# **Control module**

# mc4

#### Description

Elcos's control panel QPE-C gives you the industry leading control solution for your power needs.

The QPE-C control panel used MC4 control module for single genset applications.

The module incorporates a number of advanced features to meet the most demanding on-site applications.

The MC4 is an Auto mains (Utility) failure control mudule, It offers a cost effective way of monitoring and communicating with your genset and includes the additional capability of being able to monitor a mains supply.

It includes a USB port and an RS485 port for Mod BUS Communication.

### Applications

- Emergency when the mains failure occurs
- Self-production
- Fire fighting
- Construction site
- Rent

# **FEATURES**

#### → Controls

- Manual start up and stop
- Automatic start up and stop from AMF
- Start up and stop through contact
- Fuel pump control
- Lock
- Reset
- Programmable automatic test
- Emergency stop button
- Main counter command closed
- G.s. counter command closed

#### → Engine Measures

- Engine RPM\*
- Engine oil pressure BAR
- Engine oil temperature\*
- Engine oil level\*
- Cooling system pressure\*
- Cooling system temperature°C
- Coolant level %
- Fuel consumption\*
- Fuel level %
- Total operating hours
- Partial operating hours (resettable)

#### → Communication Interfaces

- CAN-BUS communication
- 16-relay module (optional)
- GSM remote management modem (optional)
- Remote management software (optional)
- Remote panel (optional)
- Converter485/USB (optional)
- Converter485/LAN (optional)
- USB port for saving parameters and firmware
- updates
- RS485 serial output

#### → Equipment

- Microprocessor logic
- Backlit refractive display
- 16-event alarm history list
- Multi-language management
- Troubleshooting with suggestions

#### → Alternator Measures

- Genset voltage three-phase
- Genset star voltage RN.SN.TN.
- Genset three-phase current
- Genset frequency

#### Signals/Protections →

- Failed to start
- Failed to stop
- Low oil level\*
- Low oil pressure
- Minimum oil pressure (pre-alarm)
- Low cooling liquid level
- Very high cooling liquid level
- High temperature (pre-alarm)
- Generator battery charger
- No fuel
- Low fuel level (pre-alarm)
- Start up
- Stop
- Fuel pump running
- Battery connected
- Battery charging
- Battery undervoltage
- Battery overvoltage
- Genset overvoltage
- Genset undervoltage

- Genset overload
- Genset short circuit
- Genset maximum frequency
- Genset minimum frequency

- Hours to maintenance
- Battery charger voltage
- Start up counter

- Genset apparent power KVA
- Genset actual power KW
- Genset reactive power KWr
- Genset KWh
- Genset power factor cosfi
- → Main Measures
- Mains voltage RST
- Mains frequency

 Genset connected Genset contactor closed Circuit breaker protection Mains connected Mains overvoltage Mains undervoltage Mains contactor closed

Emergency button pressed

# Optional

# GE.CU.1390/1260.SS

### **Canopy - Soundproofing**

- Canopy customized painting (RAL)
- Double soundproofing-2 dB (A) at 7 mt

### Exhaust

• (FAP) Antiparticulate - Exhaust catalyst

### **Fuel supply**

- Daily fuel tank with inspection hatch to allow cleaning
- Automatic fuel refilling system
- Tank connections 3 way valve

# Engine

- -40 C° Engine liquids
- Super hot Engine heater 230 V
- Automatic refilling oil system

# **Protection & connection Panel**

• Differential protection (adjustable only on variant +10 & +11)

# Panel

- ATS switching cabinet (QC) (only variant +11)
- Remote management software (only variant +10 & +11)
- Remote panel (only variant +10 & +11)
- Converter 485/USB (only variant +10 & +11)
- Converter 485/LAN (only variant +10 & +11)
- 16-relay module (only variant +10 & +11)
- GSM remote management modem (only variant +10 & +11)
- UTIF counter with ARCUDI terminal box
- $\bullet$  GSM remote control system with web application without SIM card (only variant +10 & +11)
- GPS tracking system (only variant +10 & +11)

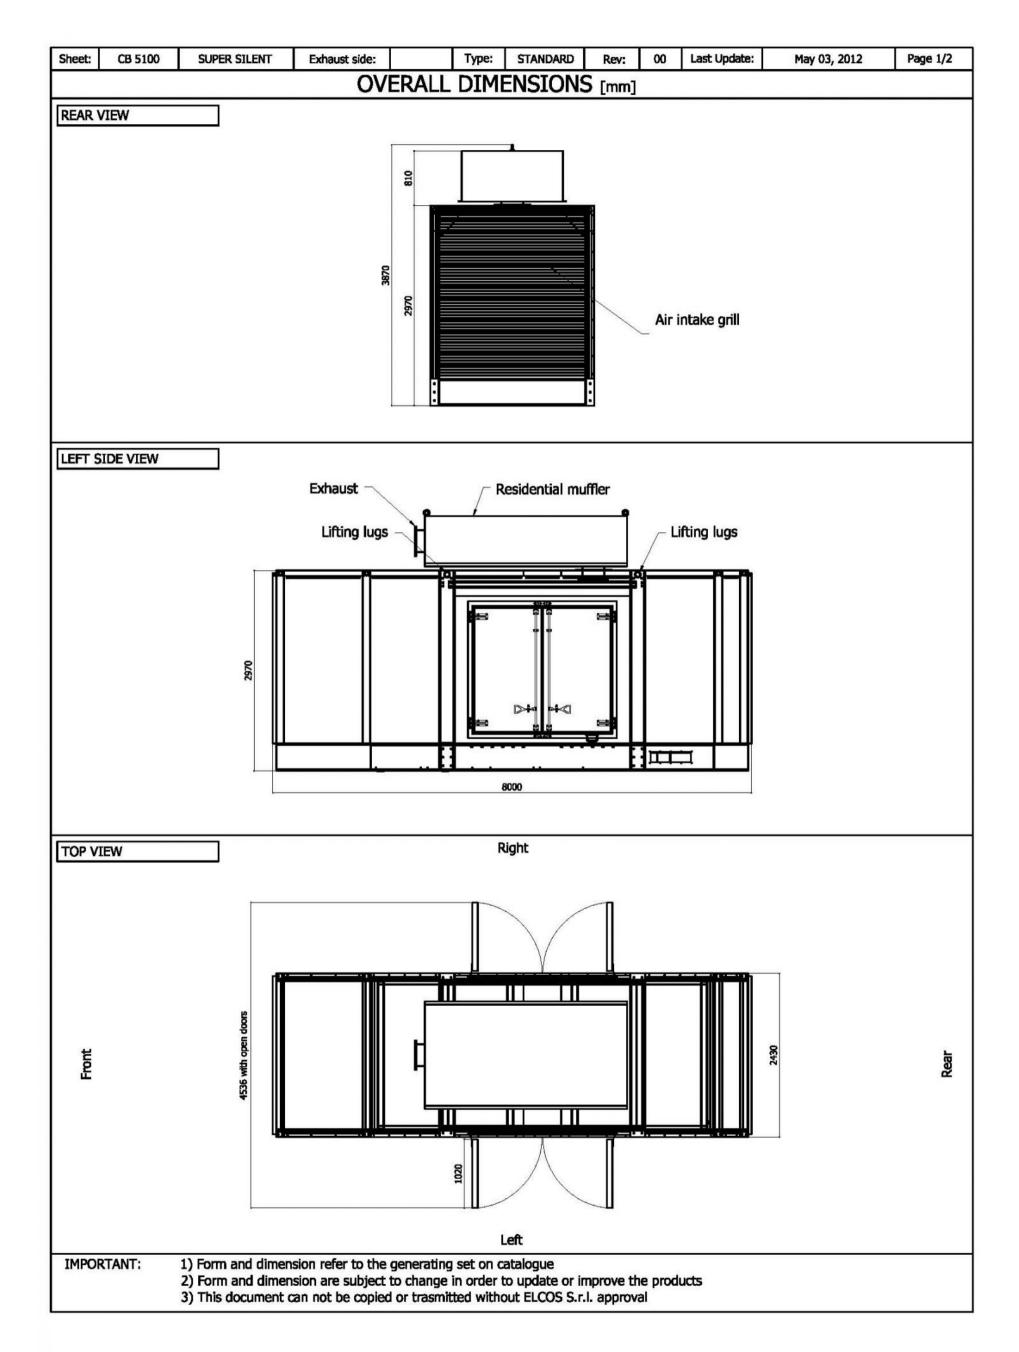

# Other

• Toolbox for ordinary maintenance
